Pontoon requires license for door-to-door sales

An ordinance requiring the licensing of solicitations and door-to-door sales in Pontoon Beach was enacted by the village board yesterday night.

The ordinance requires an application to be completed by salesmen and calls for a \$25 license fee if the application-for license is approved.

The board approved an amendment of the zoning map of Station 100 on Pontoon Road, in the village, and accepted the plat from the Clark Oil and Refining Co.

A letter was read from PSL Realty Co., in which the company pledges to maintain a vacant car wash and property at 3871 Lake Drive. The letter was in response to a letter from

Reed Gaudette Jr., acting board president while Floyd D. Moss is on vacation.

Gaudette said high winds and a lack of disrepair to the building are presenting health hazards.

The board withheld judgment on two bills. A \$2,000 bill from Ed Moore Construction Co. for half of the cost of a 100-foot steel pier to support a bridge line from Park Lane to Lot 1. Lake was held up pending discussions on the amount.

It had previously agreed to pay half the cost of the project if the village's share did not exceed \$1,000.

A so-called for clarification was a bill from H. M. Denzler Equipment Co. for \$443 from the sewer account.

College doors are still open

According to the Illinois State Scholarship Commission, which administers a variety of programs of financial support for college-bound youth, 70 per cent of the colleges and universities in Illinois are still accepting applications for admission for the fall term of 1974.

Practically all of these institutions are also offering financial aid to students who have need, it was noted.

The commission's Office of Informational Services, under the direction of William J. Hilton, has published a "Late Referral Listing" which lists 85 of the 112 undergraduate colleges and universities in the state as still having admission and financial aid opportunities.

The commission says, 72 per cent of all private colleges in the state are still offering admission, and over 64 per cent of all public institutions are still accepting students. Only five of the 85 institutions which are still accepting students have indicated that they cannot provide some degree of financial assistance.

"Financial aid is not as much of a problem as many people think," says Hilton.

"Each year, the state invests millions of dollars in tuition and fee payments for Illinois

Curtis Ray Sr. found dead

Curtis Adrian Ray Sr., 45, of 2630 E. 24th St., was found dead, hanging from a rope, at the southwest corner of his home at 8:45 a.m. Sunday. He was pronounced dead at the scene by Madison County Deputy Coroner Edward Werner. An inquest is pending.

Mr. Ray's step-daughter, Mrs. Douglas (Patti) Hintz of Granite City, had been home Saturday. Many relatives and family friends were at the Ray home following the ceremony and into the early morning hours Sunday. Mr. Ray was last seen by relatives in the back

yard as the party ended.

A 10-year-old neighbor boy first noticed Mr. Ray hanging by the neck from a rope tied to a tree in the southwest corner. The boy ran home and told his mother, who called police and an ambulance.

Officers found that Mr. Ray's wife, Alma, and a stepson, Gail Standles, asleep in the home and notified them of the death.

An overturned chair was found near Mr. Ray.

He was a lifelong resident of Granite City.

Surviving besides his wife, Mrs. Alma J. Martin Ray, and Gail Standles and Mrs. Patti Hintz, are a son, Curtis A. Ray Jr., and a daughter, Miss Curtis Ray, both residents at home; two other stepsons, Billy and Frank E. Standles, both of Granite City; three brothers, Luther Ray of Mt. Clemens, Mich., Joseph Ray of Madison City, two sisters, Mrs. Josephine (Almetta) Pinerio of Madison and Mrs. Louis (Theila) Bagner of Princeville, Ill.; and Mr. Ray's mother, Mrs. Josephine Free of Madison.

Memorial arrangements are given in today's obituary column.

community pride here and we would like you to have that community pride in your homes," Schuler said, and added, "The confidence you have in the Granite City teachers here will further that aim."

Riske spoke next, assuring the teachers, "You are in a good school district and a good city."

After accomplishing the voting of the Granite City Federation of Teachers Local 743 and asked all 1,000 teachers to participate in the union's activities.

Esay spoke to the legislative and various educational associations offers and Hanson explained the workings of the teachers' credit union.

Biggs concluded the series of talks, telling the teachers that they had selected the schools they wanted and a good school system.

He stressed the importance of all the districts in the county working together for good education throughout the service region.

Teachers selected from among many hundred teachers.

It was to show that this board of education hired the best qualified teachers to teach their children and all the children.

That is your challenge," Biggs said.

Classes will open tomorrow in the Granite City public schools with half-day sessions the first day and full-day schedules the remainder of the week.

North golfers ready to tee off '74 season

The golfing Steelers of
City High School North
will take to the greens at 4 p.m.
Friday against Wood River to
kick off this area's, and the
state's first fall golfing
program.

Competition here was
originally scheduled to begin on
Sept. 13, but Steeler Coach
Harry Lane said additional fall
meetings will be held at CGHS North's
schedule necessitated an early
start.

Tim Behrens and Dave
Dodon, who together this
spring helped lead the rookie
squad to a 6-10 season record,
will join forces with veterans
Gary Eaker, Brian Winfield and
newcomer Robert

Behrens in working toward an
improved Steeler season.

"We had a good year set up
for us," said Behrens. "We
have some good bodies people
and we hope to acquire more
with the opening of school this
week."

Behrens in the spring of 1974
had 18 hole scoring with an overall
total of 409. Dodson led the
squad seven times in the spring
season with a 295 total.

Cyclists renew rivalry Tuesday

Texas Guy McClure, having
been defeated here last week
when he crashed his motor-
cycle, will attempt tomorrow
evening to capture his fifth local
title in the M-1 Cycle
Association main event.
The race will be held at Tri-City
Speedway.

Steve of Oklahoma has 25
points and McClure has 21.

Greater Cityans Glenn Falter,

Enrollment downturn for remainder of '70s

By MARY LOU MANNING
Press-Record
Springfield Bureau

Educators peering into the crystal ball must see fewer school desks in Illinois in the future.

Based on three methods of projection, it can be safely predicted—without a crystal ball—that enrollment in Illinois public schools will continue to decline at least through the fall of 1973.

The projections also agree that by the fall of 1983 a decline of at least 16 per cent from the record high enrollment of 1971 will have occurred.

A report compiled by the Office of the Superintendent of Public Instruction outlines a study undertaken to provide 12-year projections of enrollment to educators, legislators and citizens to assist them in plans and decisions for the future.

After World War II, enrollment increased, reaching a peak of 2.37 million in 1971.

In 1973, the number stood at 2.31 million and this fall, the number is expected to decrease to 2.28 million.

The decrease is attributed to the decline in the birthrate.

The record of Illinois live births was reached in 1968 when 287,071 occurred, and the total then began a steady decline until it reached 188,992 last year.

Most live births can be expected to reach the sixth grade

12-13 years later. This accounts for the 1959 record rate and the 1971 enrollment peak.

Also, the beginning of decline in number of births should be followed 12-13 years later by the beginning of decline in total enrollment.

Therefore, enrollments through 1973 can be predicted to remain live births, those after that must rely on projected live births.

In the OSPI study, two assumed birthrates were considered.

Information from the University Bureau of Research, University of Illinois, set the rate of 2.1 children per woman of child bearing age, while OSPI statisticians used 1.8 because "it reflects recent trends which

Rules proposed on parachuting

The Illinois Department of Transportation, Division of Aeronautics, will hold a public hearing at 10 a.m. Thursday, Aug. 29, to discuss proposed rules and regulations to govern sport parachuting.

The public hearing is to be held in the Department of Transportation, 2nd floor, auditorium, 2200 S. Dirksen Parkway, Springfield. All interested persons may attend.

Written comments may be submitted to Director Guy Wood, Department of Transportation, Division of Aeronautics, Capital Airport, Springfield, Ill. 62705 no later than Aug. 29.

Basically, according to Wood, the new rules and regulations will require that a drop zone be approved by the Division of Aeronautics and that all parachutists have a permit authorizing them to participate in sport parachuting.

Wood said the laws governing drop zones will require the owner of the property to furnish proof of ownership; agree in writing that the drop zone will be operated in such a manner as to protect the safety of the parachutists and the interests of adjacent property owners; and obtain property damage and personal injury liability insurance.

In addition, the drop zones will be subject to inspection at least twice a year.

In order for a person to obtain a sport parachuting permit, the proposed law requires the applicant to be 18 years of age, have the written consent of a parent or guardian; to pass a class 3 Federal Aviation Administration physical examination; and to have received thorough instruction in the techniques of sport parachuting and passed a written examination on necessary safety precautions.

July fuel tax allotments set

Counties in Illinois have been allotted \$2,220,385.22, except Cook County, which has been allotted \$2,952,019.82, as their share of motor fuel tax funds paid into the state treasury during July, according to the Illinois Department of Transportation.

Motor fuel tax funds are allocated monthly to the various counties in Illinois for their highway needs. The monies allocated are computed on the basis of the total motor vehicle registration fees. Cook County receives 11 per cent of the total funds available.

THE SCHERMER BULLETIN

We had our day made early this morning. A customer came up and told us that last week was her first visit to our store. She told us how pleased she was with our store and particularly our meat department. She said that she bought a beef roast that "just melted in your mouth." That made our day.

We have noticed that quite a number of young married couples with small children have become Schermers customers in the past few months. Evidently, when the chips are down and money really counts, the place to shop is Schermers.

Brenda S. LaCroix and Gary W. York are wed

Miss Brenda S. LaCroix and Gary W. York were united in marriage at a candlelight setting at the Word of Life Tabernacle at 7 o'clock Friday evening by Rev. Henry Crispin officiated.

Purple candles burning in branched candelabra illuminated the sanctuary and bouquets of summer blossoms adorned the altar for the early evening ceremony.

Jean Kelling presided at the organ and also sang "Love Story" and "We've Only Just Begun."

The bride is a daughter of Mrs. Peggy Jarrett, 1425 Madison Ave., and Bernard LaCroix of Texas. Parents of the groom are Mr. and Mrs. Ralph York, 3345 Palm Ave.

Larry LaCroix, a brother of the bride, was best man and the bride's sister down the white carpet aisle to the altar. She chose a softly flowing white organza gown made with a slightly gathered skirt.

The molded bodice was fashioned with a high neckline and very full 'shepherdess' sleeves, accented with a lace caplet at the shoulders and tightly gathered at the waist.

The bride, a 1972 graduate of Granite City High School, is presently employed at Slego Steel in St. Louis. Her husband, an employee of Nestle Co., Granite City, was graduated in 1968 from Granite City High School.

Surprise party for bride-elect

Miss Donna Marie Williamson was guest of honor last week at a surprise bridal shower hosted by members of her wedding party at the home of Mrs. Linda Lutell.

Assisting the bride-elect in opening her gifts were the bridesmaids, Misses Lorraine McKay, Mary Ann Williamson, Beth Ann Heidbrink and Sharon Burdette.

A poster-size replica of the couple's engagement photo was the focal point in the hall decorations. Yellow and white was the color scheme.

Guests enjoyed a white iced cake, arranged in a square, topped with a smaller heart-shaped cake and a miniature bride with yellow daisy accents.

Tiny yellow daisy figures were placed in cake and frosted in yellow with delicate daisy trim added to the centerpiece.

Games were played and prizes were awarded. Refreshments were served by the misses assisted by Miss Sharon Westbrook and Miss Linda Lutell, of Hammond, Ind., cousin of the bride to be.

Attending the afternoon affair were Mrs. Ray Williamson, mother of the bride; Mrs. Chester Heidbrink, mother of the prospective groom; and Mesdames Mary Carich, Delores Thompson, Josephine Uram, Margaret Williamson, Steven Heidbrink, Carl Heidbrink, Pat Heidbrink, Margie Heidbrink, Marie Luddie, Helen Schwartz, Georgette Kuehn, Patsy Edgar, Nancy Pelson, Linda Odgen, Ann Rhiney, Jill Edgar, Terry Pelson.

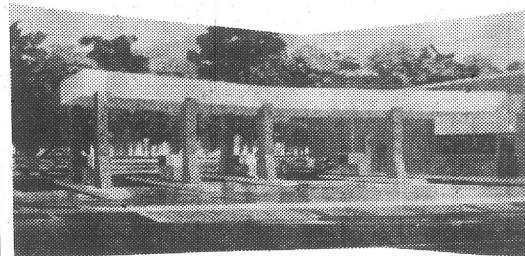

Misses Ann Marie Uram, Nancy Pinnel, Natalie Letak, Connie Williamson, Mickey Williamson, Janice Smutney, Margaret Darakjian and Tammy Heidbrink.

Miss Williamson will become the bride of Steven Heidbrink on Sept. 7 at St. Elizabeth Catholic Church.

Electricity helps work medical miracles...

Diagnosing heart ailments

Substituting for kidneys

Keeping more babies alive

Hospitals and medical laboratories in Illinois can work wonders these days. Electrical and electronic devices play major roles in helping doctors diagnose disease and provide therapy.

Electronic computers scan thousands of records to locate and match organs for transplants. Computer-operated machines analyze hundreds of blood samples in minutes, and perform other functions that save time for nurses and technicians.

Electronic devices even act as temporary substitutes for human organs.

Where life and health are involved, electricity bears a critical responsibility.

If your savings place doesn't offer all these good things, it probably doesn't have an Oliver either.

1. 5 1/4% Passbook

The simplest way to start saving. Add any amount anytime—withdraw anytime, too. You earn the highest interest allowed by law.

2. 5 1/4% Golden Chip Passbook

A minimum balance of \$500 earns the highest interest allowed on this account. You can withdraw on 90 days notice, or during the first 10 days of any quarter if the money has been on deposit for 90 days.

3. 6 1/2% Savings Certificate

This certificate matures in just one year. It's issued for a \$1,000 minimum or \$500 multiples above the minimum.

4. 6 1/2% Savings Certificate

You'll earn more than you would on many bank stocks with this 30-month certificate. It requires a \$5,000 minimum or \$500 multiples above the minimum.

5. 7 1/2% Savings Certificate

Deposit a minimum of \$5,000 for 48 months and we'll guarantee you a 7 1/2% return on your investment each of those four years.

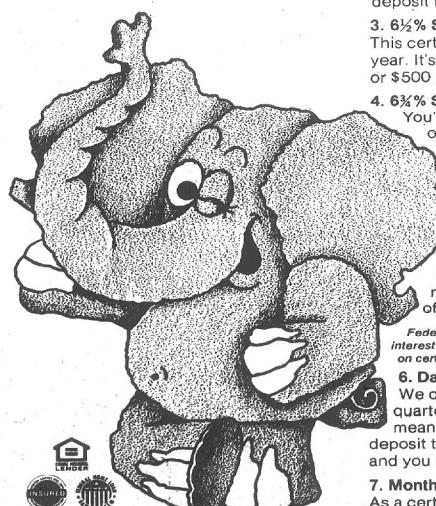

Federal regulation requires a substantial interest penalty for early withdrawal on certificates.

6. Daily Interest

We compound interest daily and pay quarterly on all savings plans. That means you earn from the day of deposit to the day of withdrawal, and you get a higher annual yield.

7. Monthly Interest Payments

As a certificate saver, you can receive monthly checks for your interest, if you prefer.

Proposal submitted for employment and training

Nelson Hagnauer, chairman of the Madison County Board, and Wayne Ennen, chairman of the Bond County Board, have announced that they have submitted a proposal for a comprehensive manpower program to the U. S. Department of Labor to be funded under the Comprehensive Employment and Training Act of 1973.

A total of \$1,372,753 is to be made available to Madison and Bond Counties for the operation of this program, a spokesman said. The program is to be administered by the Office of Manpower Development established by the two county board chairmen to operate manpower programs in the two county area.

The director of the Office of Manpower Development is Dan Churovich. The program will provide training and work experience for unemployed and disadvantaged persons living in Madison and Bond Counties.

Vocational training programs will be offered at Belleville Area College, Lewis and Clark College, Kaskaskia Community College and the East St. Louis Skill Center. A program will be provided

for persons who are not high school graduates and are interested in obtaining a General Educational Development certificate.

The Office of Manpower Development also will operate an on-the-job training program, a work experience program for persons who are currently employed in a secondary school, and a summer youth program.

A copy of the Comprehensive Manpower program proposal is submitted to the U. S. Department of Labor on display in the office of Manpower Development, located at 103 W. Purcell Ave., Room 205, Edwardsville.

The starting date for the manpower programs will be determined by the U. S. Department of Labor. When the starting date for the program is known by the local office, notification will be given through the press and the Illinois State Employment Service.

For the Office of Manpower Development has been established by the chairman of the boards of Madison and Bond Counties, based on recommendations made by an 18-member Advisory Council representing the two counties.

Cab fare raise proposed

A rate increase in Granite City taxi fares of 25 cents per zone is among changes proposed in the city's present taxi control ordinance by the City Council's Traffic committee. It was reported that

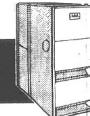

The traffic committee, headed by Alderman Everett Morlen of the First Ward, has held several meetings within the past two weeks to discuss changes in the ordinance and is expected to recommend a new taxi control ordinance soon.

Other changes proposed in the ordinance is an increase of 10 cents to 25 cents for each extra passenger carried by the cab and an increase of 10 cents to 50 cents for each package not carried by a passenger but delivered by the cab driver.

An additional rate schedule from the Bellmore Village shopping center, not in the present ordinance, also has been proposed, as has a special rate for senior citizens 65 years of age or older. A proposed 25-cent discount is being considered in this case, with senior citizens to offer proof of age by a Bi-State Senior Citizen ID card.

The 25-cent per zone rate increase would establish a rate of 90 cents in Zone 1, \$1.15 in Zone 2, \$1.40 in Zone 3, \$1.65 in Zone 4, and \$1.90 in Zone 5. The city taxi cab ordinance last was amended in June 1971. At that time rates were increased 15 cents per zone.
